Autism Services Program

San Antonio Autism Resource Guide

The parents and staff of the **Autism Services Program** have compiled the following guide. The goal of this resource guide is to provide families with all available information so that they can make the most informed decisions regarding their child with autism spectrum disorder.

Please call the Any Baby Can main office to access the assistance of a case manager who can provide useful service coordination to guide you and your family through the many available resources.

Any Baby Can also offers a variety services to the San Antonio autism community. Our goal is to provide training and support to anyone interested in learning about children and individuals with autism.

Here is a list of Autism Services we provide **free** to our community:

- **Autism Parent Training (Five Session Course with free materials)**
- **Group and Individual Counseling with a licensed Clinical Psychologist**
- **Toilet Training (Two Session Course with free materials)**
- **Parents Empowering Parent Care/Share Group**
- **Parent Nights Out**
- **Autism in the Community Training for First Responders, parents and teachers**
- **Annual Halloween Party**
- **Follow up Behavior Support**

Please call us at **(210) 227-0170** to get started

Autism Resource Guide

Resources are constantly evolving, please contact Rachel Vargas-Trevino at Any Baby Can for additions or send changes via email rvargas-trevino@anybabycansa.org or phone **(210) 547-3013**. We encourage parents and professionals to contact us regarding additions or deletions to the resource guide. Please check our website for monthly updates, www.anybabycansa.org.

The second page of this resource booklet is a guide to direct you in the recommended order to access resources in San Antonio once a child is diagnosed with autism. The intent of the chart is to give you a list of categories and the suggested order to access those services. This is not a representation of all available resources and is intended to serve as a helpful guide. You may access services in the order of what you and your family find most important, and you may find other resources that better fit your child/family's needs.

We hope that you find this resource guide helpful in learning what services are available to you and your family. Please feel free to share this with others that may be in need, and visit our website www.anybabycansa.org or call (210) 227-0170 for more information.

Autism Treatment Center Rehabilitation Agency (ATCRA) is a Medicaid Outpatient Rehabilitation Facility (ORF) offering speech and occupational therapy services to children ages 18 months through 21 years of age. ATCRA serves the community through information dissemination, quarterly comprehensive developmental screenings (free to the public), consultation, therapy, diagnostics and research. Children receiving services from the ATCRA benefit greatly from ATC's years of experience in applied behavior analysis (ABA), intervention and treatment strategies. It is the mission of the ATCRA to *promote the development of functional communication and social skills for individuals with autism and related disorders*. ATCRA believes in the importance of teaching functional communication to children of all ages. Licensed Speech and Occupational therapists adhere to best practice, offering research-based treatment and therapy to each patient. Treatment sessions range between 30 minutes to an hour and patients are seen 2-5 times per week. Co-treatment sessions are available and can be designed for the specific needs of each patient and family. ATCRA currently accepts patients who have Medicaid and is a provider for Community First and Superior Health Plan, as well as accepts private pay patients.
