

Intern Positions Overview

Bereavement Intern

- Support the work of the bereavement team as they help families navigate life after the loss of a pregnancy, infant, child, or teen. Students will gain hands-on experience with community support, funeral navigation, healing resources, and data entry.
- Ideal for students interested in psychology, therapy work, sociology, community healing, data entry, grief support

Case Management Intern

- Walk alongside families and connect them with life-changing resources for long-term sustainability. Work under the mentorship of a licensed social worker to learn how to navigate all of life's challenges.
- Ideal for students interested in social work, disability advocacy, sociology, psychology, public administration

Community Education Intern

- Bring critical education to the whole community with our Autism & All Disabilities Education Team. From research to presentations, students will support the gift of free, accessible education to families, teachers, and first responders.
- Ideal for students interested in education, disability advocacy, public administration, psychology, health careers

Community Engagement Intern

- Make meaningful connections with the community to bring in new families through outreach initiatives and dedicated volunteers for organizational wide support. Students will design and implement plans to engage underserved communities as well as create memorable volunteer opportunities.
- Ideal for students interested in public administration, sociology, volunteer management, non-profit management, communications, disability advocacy

Data Entry & Analysis Intern

- Ensure we make informed and data-driven decisions that elevate our programs and impact by collecting program data and client surveys. Students will clean data, conduct analysis, and present the data to the team.
- Ideal for students interested in data entry, program evaluation, mathematics, computer science

Development & Special Events Intern

Intern Positions Overview

- Join the team that make relationships, put on events, and build fundraising streams to sustain our free community services. Students will learn about donor stewardship, fundraising event planning, and how to communicate impact with hands-on experience.
- Ideal for students interested in non-profit management, business management, communications, hospitality and event planning

Social Media & Narratives Intern

- Use the power of the internet to bring new people to ABC to be served or support with powerful pictures, videos, and stories. Students will use real-life stories and needs to create social media posts and campaigns.
- Ideal for students interested in social media management, graphic design, marketing, communications, professional writing
